

THE  
Bloomfield Record.

A WEEKLY JOURNAL

S. MORRIS HULIN, Editor and Proprietor

Office 29 Broad Street.

FRIDAY, JANUARY, 10, 1896.

## Dangerous One-Man Power.

A year or so ago J. W. Sullivan, the author of "Tenement Tales," one of the most charming books ever published by our friends Dold, Mead & Co., wrote a magazine article showing the increasing use of the veto by the presidents of the United States. The article was a revelation to its readers of the immense power held by one man.

In *The Youth's Companion* for January 2, 1896, the Hon. Hilary A. Herbert, Secretary of the Navy, in an article entitled, "What the President does in the White House," uses the following language, which to our thoughtful readers will go far toward inclining them to answer the question at the head of this article in the affirmative. Italics ours.

"National pride is easily offended, and so difficult and delicate are the duties of a President growing out of our foreign affairs, that it has always been a rule that the President of the United States may keep secret, even from Congress, his correspondence with foreign powers if he thinks the public interests require it. It is even true that often when the public knows nothing of what is being done through the State Department the issue of peace or war rests in the discretion of the President. Congress, indeed, has alone the power to declare war, but the American people are very complacent, and so patriotic that, whenever diplomacy has got us into a quarrel with a foreign nation, public sentiment may be counted on to be with our country, right or wrong. Congress is always, on such occasions, apt to be responsive to public opinion, which is easily excited, and so it is plain that whether our country shall continue to enjoy the inestimable blessings of peace quite frequently depends upon the will of the President of the United States."

What a "condition" this is that confronts us, and how different from our "theory" of a government by the people!

How does Secretary Herbert know that Congress "is responsible to public opinion?"

How does Congress know what the people want?

They don't know; any more than our Town Committee can know without taking a vote on a subject that concerns the public interests vitally. The Coming Nation of January 4th has an account by F. Scribshaw of Brooklyn, known to some of our readers, of an iniquitous law passed by the Council of the Confederation of Switzerland (they have no President in Switzerland) "by a vote of 90 to 23, a majority which in any American legislature would have been deemed large enough to be called a popular measure."

Upon taking a referendum, the people rejected the law by a vote of 271,999 to 67,675, or an adverse vote in about the same proportion as the vote of the Council in favor.

If we had such a means of determining the will of the people, we, no doubt, would have instances of our own to show that our representatives would express the truth.

## The Bond Issues.

In order to be in position to take the expected bonds, unnecessarily issued by the government, individuals and banks have been boarding money to the great annoyance and danger of the legitimate business of the country. If every victim of the iniquitous policy of the powers at Washington could be induced to voice his indignation, there would be a new subject for scare headlines in the New York papers.

Two hundred millions of bonds have already been issued; and *au cuncti bono*? How has the country been helped? The nation is that much needlessly in debt, that much poorer, by reason of the drain on her industrial resources. To pay the national debt was the policy since the war, until now the Cleveland plan is to pile it up again, in abject worship of the gold fetish. And the gold obtained for these successive issues of bonds disappears from the Treasury as easily as it would through a hole in Uncle Sam's pocket.

And now, as the "pocket" becomes depleted, the administration is begging to have it filled up again, to "preserve the national honor."

This is a rich country, a land of unlimited resources, with no need of borrowing a dollar or buying an ounce of gold; but its finances are manipulated and controlled by the "cannibals of change alley," as J. H.

deus Stevens characterized the same gentry thirty-three years ago.

The industry, the enterprise of this country is being crushed between the upper and nether millstones of American and foreign plutocracy. This whole bond mongering and gold buying business is ridiculous. It is surprising that the people will so readily submit to it without protest. Gullied by the daily papers into supposing that a popular loan is necessary to uphold the public credit, the inquiry is approved, and the country drifts along toward the inevitable crisis.

## Electric Lighting.

To The Editor of The Record: Prof. Frank Parsons of Boston in an exhaustive discussion of the electric light question in successive numbers of *The Arena* has shown conclusively the many advantages resulting from the people owning their electric light plants than to one who has read his able articles can have any doubt of the desirability of such ownership.

Our fellow townsman, J. Banks Reford, also devoted much time to a laborious and thorough examination of this question, and presented a report in favor of town-ownership to the Committee of Thirty. That report has never been questioned.

Prof. Parsons says: "When we examine cities that have already adopted this solution, we find economy, impartial administration, respect for public safety, efficient service, and a decided gain for good government."

He suggests for public safety "he refers to the necessity of proper insulation of wires, which he says should be under the charge of the fire department. Who would not trust our careful fire chief, Oakes, rather than a company looking only to profit?"

Why can't we have a referendum on this subject, to ascertain the wishes of the people? Is there any law to prevent our owning our own electric light plant? Perhaps J. Banks Reford, who is one of the best informed men in town on the laws of New Jersey, could tell us; or one of the Sub-Committee on law of the Committee of Thirty, who it is to be presumed, made an investigation of the subject.

Yours respectfully,

ELECTRIC.

## The Speakership

From the Newark Daily Advertiser.

The struggle for the Speakership is uncommonly vigorous this year. Both candidates, Mr. Skinner of Essex, and Mr. DeCoursey of Camden, are confident of victory, and each presents estimates which leave no doubt of election, until the opposition is smothered. The Republican delegation in the Assembly consists of 43 members, and 22 votes will be necessary to choose for Speaker, Mr. Skinner has the unanimous support of his county, with the exception of Mr. Christie, who has not the courage to come out fair and square for Mr. Skinner or against him. Besides Mr. Skinner has support from all parts of the State, except South Jersey, where Mr. DeCoursey is strong. While Mr. Skinner's fitness for the position is conceded on all sides, it is evident that Mr. DeCoursey has many elements of strength which make his candidacy a formidable one. Essex County will be greatly pleased, however, if the Republicans of New Jersey see fit to award the Speakership to Mr. Skinner, as the representative of the better Republican county of the State.

The caucus will be held at Trenton next Monday. The Legislature will convene next Wednesday, Jan. 14th.

## Seminary Notes.

The annual Christmas festival of the German Theological Seminary was held last night. A number of useful articles were received which were distributed among the students, after which refreshments were served. A number of the Alumni were present.

The two prize essays, which were taken by Rev. Louis Viller of New Orleans, and Rev. Philip Volmer of Philadelphia, will be read next Tuesday night at the First German Presbyterian Church of Orange. An interesting program has been arranged. The Polymnia of the Seminary will sing.

The week of prayer was observed at the Seminary each day from 5 to 6 P. M. by the following devotions: Monday evening, Rev. Dr. E. K. Egan; Tuesday evening, Rev. Dr. Henry J. Weber and Rev. Jacob Schmidt; Wednesday evening, Rev. Dr. Rollin A. Sawyer; Thursday evening, Rev. Dr. George C. Seibert; Friday evening, Rev. Karl Hoek.

## New England Supper.

The Womans Christian Temperance Union will hold a New England Supper in their hall next Wednesday evening, Jan. 15th. Admission 10 cents. Supper served from 6 to 8 o'clock. Tickets for supper, which will be excellent, adult's ticket, 25 cents, children's, 15 cents. There will also be fancy articles, candy and ice cream for sale, also a musical program in the evening. The proceeds for the benefit of the charitable work of the Union. A generous patronage is needed and will be appreciated.

## Musical Instruction.

Mrs. F. W. Bennett's musical season begins Thursday, September 20. Special attention given to beginners. For terms, etc. address or call at No. 537 Bloomfield Ave.

## Deafness Cannot be Cured

By local applications, as they cannot reach the diseased lining of the ear. There is only one way to cure Deafness, and that is by constitutional treatment. Deafness is caused by inflammation of the middle ear, and the inflammation must be removed. The only way to remove the inflammation is by the use of the Eustachian Tube. When this tube gets inflamed you have a running sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are cured by cathartics, but an instant cure of the mucous surface. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Ointment Cure. Send for circulars.

J. C. CHENEY &amp; CO., Toledo, O.

Sold by Druggists, 75c.

## TOWNSHIP COMMITTEE.

The regular meeting of the Township Committee was held on Monday night, all members being present except Mr. Fisher of the Second Ward.

After roll call and reading the minutes of the last meeting Clerk Johnson reported the receipt of 56 bills for the Committee's consideration. The following bills were approved:

J. W. Baldwin & Bros., supplies for Poor House, \$211.11; M. Roberts, for the care of Jane Bonnell, \$18; Bloomfield Coal and Supply Co., poor account, \$25.90; the bill of M. Armbruster for 446 quarts of milk supplied to the Poor House was referred back for verification. J. P. Scherff, medicine, poor account, \$8.90; W. B. Corby, coal, \$93.20; Richard and Theodore Harvey, stoves and plumbing work, \$32.11; C. L. Voorhees, poor account, \$25; A. H. Olmsted, Township Engineer, \$76.54; Rent for Nos 25 and 27 Broad Street, \$50; Bloomfield National Bank, interest, \$797.99; Thomas L. Dancer, agent stationery supplies, \$10.80; W. W. Young, Health Inspector, salary, \$21.45; John A. Lawrence, Treasurer, salary, \$41.67; Ward & Tichenor, printing, Borough case, \$100; Queens Insurance Co., City Hall insurance \$21; Thos. B. Baxter, election booth insurance, \$5; Merchants Insurance Co., Fire Department insurance, \$8.06; N. Y. & N. J. Telephone Co., \$16.45; C. H. Halpin, furnishing evidence in the controversy between the Township and the New York & Greenwood Lake Railroad concerning grade crossings, Ganewell Fire Alarm Co. supplies, \$43.72; F. S. Hayward & Co., extinguisher, \$5; M. J. Callahan, repairs to crosswalks, \$15.15; M. J. Callahan, Belleville Avenue sewer, \$1260.41; Robt. Hall, oil for Active House, \$3.40; M. W. Boyle, repairing clock at Truck House, \$5; W. W. Oakes, salary \$25; Thomas Higgins, Superintendent Public Grounds, \$25; Montclair Gas & Water Co., \$1508.13; Electrical Review, adv. two insertions, \$3; William Thompson, cleaning Police Station, \$5; E. D. Ackerman, sewer connections, \$95.05; Walter Lane, salary for December, \$50; P. H. Harrison & Sons, sewer repairs, \$8.10; P. H. Harrison & Sons, final estimate sewer work, \$3837.87; George M. Cadmus, salary, \$58; Clements Herschel, consulting engineer, \$125; W. W. Taylor, sewer pails, \$15.36.

The report of the Treasurer was received showing a small balance in the bank.

A demand note for \$6000 was ordered discounted for sewer purposes.

Mr. Powers of the Street Lighting Committee made a motion that the Committee have a special meeting next Monday night to consider electric light proposals, when the bidders will be requested to be present and explain their bids, and to transact any other business that may come before the meeting. Adopted.

Chairman Stout received an anonymous communication containing an account of an accident to an electric light plant on Staten Island which left the town in total darkness, as a reminder of what might happen in Bloomfield should they adopt this system.

The resignation of Theodore Harvey from active membership in Phoenix Hose Co., No. 1, was approved and F. C. Bucher was elected to fill the vacancy. The election of John Bailey and Theodore Parent as members of Excelesior Hose Co., No. 3, was also approved.

An ordinance of the Fire Department requires that all members of the department shall respond at least once a year to a call for inspection and drill, or else pay a fine of one dollar which is sent to the Treasurer of the Firemen's Relief Association. The only excuse that will release a member is sickness or death in the family.

Chief Engineer Oakes issued a call for an inspection on September 25th. About a dozen firemen failed to respond and eight of these paid their fine without a murmur. Charles W. Powers, George M. Wood and Dr. W. H. Van Gieson, of Essex Hook and Ladder Co., and Policeman James Foster of Active Hose Co., No. 2, did not pay up.

The Fire Committee, Frank Foster and Seymour P. Gilbert, notified the delinquent members to appear before them and show cause why they did not comply with the ordinance. The matter caused a spirited discussion in which the part of the alleged delinquents was championed by Chairman Stout and Mr. Powers, while Frank Foster acted in the capacity of prosecutor. He recommended that the men be allowed ten days and asked the Committee to take more forcible measures in the event of the men failing to comply. Mr. Stout said that as this was the first case of the kind that had come before the Committee he should counsel going along, that the action of this body might be free from any tinge of harshness. We have a very efficient fire department, continued Mr. Stout, and discipline must be maintained.

Mr. Powers explained that he wished to speak, not as one of the

accused firemen but as a member of the Committee. Fireman James Foster, of Active Hose Company, who is on the list of men presented for, censure by his brother, Frank Foster, is not only a fireman but he is also a police officer. On the day of inspection James Foster was in the parade in his capacity of policeman. It does not seem right that a man should be fined for inability to be in two places at the same time.

No excuse has been offered by these men said Mr. Foster. The resolution of censure was passed.

Chairman Stout read a communication from Albert H. Bickmore, of New York, in relation to the erection of a garbage crematory for Bloomfield, East Orange, and Montclair. Committee men Gilbert and Lawrence were appointed to consult with representatives of the other towns as to the advisability of having such a plant.

Tax Collector A. C. Carr was instructed to advertise for sale all property on which the taxes remain unpaid for 1894. A considerable amount of money is due the township said Mr. Stout, and a respectable amount will be paid when the delinquent taxpayers are advertised.

The Committee went into executive session at 9.15 to consider health matters.

Hattie Well and Happy

Used to Suffer From Impure Blood and Eruptions

The Beneficial Results Brought About by Hood's

Hood's Sarsaparilla cured my child of impure blood and eruptions on the head. She would scratch her head so that it would bleed. The sores spread behind her ears, and the poor child suffered terribly. I doctored her the best I knew how but the sores did not get any better. But thanks to Hood's Sarsaparilla and Hood's Olive Ointment, she is now well and happy.

Hood's Sarsaparilla is a large and healthy for a child five years old. This is all the medicine we take, for I do not think there is any better. Hood's Pills act easily, yet promptly and effectively, on the liver and bowels.
